

#cryptoFIFA Rules

Participation Type

- Individual

Use your own judgment to predict the match outcomes

Common Rules

1. Each participant will get 100 coins credit as soon as you submit predictions of 60 or more points for a match.
2. Balance in your wallet will be carried forward to the following day.
3. abc coins cannot be transferred from one participant to another.
4. It is not mandatory to enter prediction for all questions.
5. Predictions must be entered before the following deadline (10 Min Before Start). Participants will not be able to predict post deadline.
6. For each correct prediction the participants will get a reward as per the multiplier factor listed against the question on the website
The organizers have the liberty to change the multiplication factor as the tournament progresses. The same will always be reflected in the app against each question.
7. Additionally, the total coins put against a question (pot) will be distributed amongst winners on weighted average basis of the coins put against a given prediction Pot distribution among winners will be as per below table:
8. Reward and bounty will credited latest by start of play of the first match in the following day.
9. Two leaderboards will be maintained. First board will contain both Individual as well as ML participants. The second board will only consist of ML team.
10. In case of any dispute, decision taken by the organizing committee will be final.
